

HOW ÅDIENCE WORKS

How to use Ådience

A short guide for staff — how to answer the audience's most common questions about the exclusive audio channel.

What is Ådience?

Ådience is the exclusive audio channel for audiences physically present at the venue. Through the app, visitors get commentary, stats, and exclusive audio content straight to their ear — synchronized with what's happening on the pitch, with under 0.5 seconds of delay. Access is reserved for those actually present, through geofencing around the venue.

How the audience uses Ådience

01

Scan the QR code

At the entrance, on signage, or in the programme — goes straight to the download, no searching the App Store needed.

02

Arrive at the venue

The app automatically recognizes you're within the geofence — no login or registration required.

03

Listen exclusively

Connect your own headphones and enjoy commentary and content you won't find anywhere else.

The QR code should be everywhere. At the entrance, on seat signage, in the programme, on the big screen, and on social media ahead of matchday. Your venue's unique QR code is under My page → Media.

For the speaker team

Speakers and commentators broadcast via a private, personal sender code that's never shown in the app or on QR codes — it's found exclusively under My page → Statistics, tied to an active subscription or event. Never share the sender code in public channels.

Your speaker team has completed Ådience's certification course — structured modules on technique, audience engagement, and safety, ending in a final quiz. You can trust they know what they're doing.

Common questions from the audience

Does it cost anything to use Ådience?

No, the app is free to download and use for audiences at venues with an active subscription or event.

Why am I not getting audio?

Check that you're within the venue's geofence, that the app has location access, and that the event is marked active by the organizer.

Does it work without wifi?

Yes — Ådience uses mobile data or wifi, and GPS/wifi position for geofencing. No connection to the venue's internal network is needed.

Do I need to register or log in?

No. The app is listening-only and requires neither login nor personal information from the audience.

Where do I find our venue's QR code?

Under My page → Media, in three variants (color/white/transparent) plus a ready-made poster for printing.

Who do I contact if there's a problem?

Point to the organizer's own support, or post@adience.no / +47 901 82 288 for technical questions.
